What Is **STANSBERRY RESEARCH?**

By Porter Stansberry, Founder

Stansberry Research is a subscription-based publisher of financial information and software, serving millions of investors around the world. Our business is guided by two simple principles:

1. We strive to give our customers the information we'd want if our roles were reversed.
2. We only publish analysts whose advice and strategies we'd want our own families to read and to follow.

We believe in offering a range of opinions. Experienced analysts, with their own unique investment strategies and philosophies, lead our franchise brands. As a result, we do not promote a single, unified view of the markets, but instead we publish a mosaic of opinions, recommendations, and strategies. This multi-franchise approach gives our work far greater breadth, creating more diverse opportunities for our subscribers. Our franchises are linked, however, by a continuous commitment to risk management and a contrarian approach to identifying investment opportunities. Across all of our franchises, we focus on investments that are unloved, ignored, or unknown. It is in these situations where having an informed perspective gives our subscribers the best risk-to-reward opportunities.

We believe in a long-term approach. Our business strategy is based on building long-term relationships with our customers. We generally

do not earn a profit from marketing trial subscriptions. Instead, we seek long-term relationships with our clients by providing consistently reliable, actionable, and profitable advice, which results in renewal income for our business. As a result, many of our internal marketing efforts are focused on selling lifetime subscriptions, which give clients access to more (or even all) of our products at a much lower total cost. The same long-term thinking guides the relationships we have with our business partners and our employees.

We believe in transparency and accountability. Sincere goodwill is best demonstrated by routine and reliable measures of performance. We believe that all investment advisors, whether fiduciaries or publishers, ought to provide an accounting of the outcomes of their advice. All of our investment recommendations are publicly evaluated each year. All of our investment newsletters include track records in each monthly issue.

We believe in unmatched customer service and no-risk subscriptions. Our overall goal in business is to simply treat our customers as we would like to be treated. When you call our office, we will pick up the phone. And, at any time in the first 30 days, if we're not able to meet your expectations for any reason, we are always willing to "part as friends."

PORTER STANSBERRY

Porter Stansberry founded Stansberry Research in 1999 working on a borrowed computer at his kitchen table. Since then, he has built the firm's flagship newsletter, *Stansberry's Investment Advisory*, into one of our industry's most widely read publications.

Prior to launching Stansberry Research, Porter was the first American editor of the *Fleet Street Letter*, the world's oldest English-language financial newsletter.

Today, Porter is well-known for doing some of the most important – and often controversial – work in the financial advisory business. Since he launched *Stansberry's Investment Advisory*, his string of accurate forecasts has helped his readers both avoid catastrophe and make incredible gains. It's what has made his newsletter indispensable to many readers around the world.

For example, his dead-on prediction of the credit crisis got the attention of *Barron's*, which said Porter's work was "**remarkably prescient...**
Nothing, as far as we can see, has happened to contradict his dire prophecy..."

BRETT AITKEN

Brett Aitken is Publisher of Stansberry Research. He oversees our editorial team and the various publications at our firm.

Originally from New Zealand, Brett joined Stansberry Research in 2012. Over the past 25 years, he has worked with high-level business executives across three continents – a tremendous experience he now brings to Stansberry Research.

Brett co-founded a 100-person debt-recovery company. Among his clients were blue-chip companies throughout Australia, major banks, and various government sectors.

His next business – a European consulting firm – involved working with companies based in the U.S., France, Slovenia, the U.K., Spain, Portugal, Brazil, China, and Hong Kong.

Brett is an expert at analyzing global businesses, and works with more than 20 of the best editors and analysts in the business to provide high quality, in-depth, and independent research. Together, the team provide various strategies our readers can use no matter what is going on in the markets with some of the safest and most profitable investment ideas available in the world.

PORTFOLIO MANAGER

AUSTIN ROOT

Austin Root is editor and portfolio manager for the *Stansberry Portfolio Solutions* products. He is also director of research and director of corporate development for Stansberry Research.

Prior to joining Stansberry, Austin was a partner and portfolio manager at D.F. Dent & Co., a Baltimore-based investment advisor focused on owning high-quality growth companies.

Before that, Austin co-founded and ran North Oak Capital, a New York-based hedge fund with a strategic investment from Tiger Management. North Oak produced strong investment returns over the life of the firm, generating positive returns in each year and for every investor, exceeding hedge fund benchmarks.

Austin previously held senior investment positions as SAC Capital Advisors and Soros Fund Management. Austin has experience investing across asset classes, including public equities, derivatives, venture capital, private equity and fixed-income securities. He began his career in investment banking at the Blackstone Group, and he earned an MBA from Stanford Graduate School of Business, and a BS in Commerce from the University of Virginia.

PUBLICATION

STANSBERRY PORTFOLIO SOLUTIONS

Our core advice, which we've been offering for nearly 20 years, is that investors should build their portfolios around super-high-quality, capital-efficient companies. Stansberry Portfolio Solutions puts it all together for you into one simple, allocated portfolio intended to survive anything the market throws at you no matter the macro environment.

This consolidated approach to our research is like having the perks of a financial advisor or money manager without having to give up any control over your money.

There are four portfolio levels within Stansberry Portfolio Solutions: *Capital Portfolio*, *Defensive Portfolio*, *Income Portfolio*, and *Total Portfolio*. Each is built around our core ideas with simple, actionable advice that will take you no more than an hour each month to implement.

Each portfolio gives specific allocations for the recommended companies, down to the exact number of shares to buy per \$100,000 invested.

Once a month, we'll send you a briefing that includes a review of each portfolio and any changes that we need to make. We'll also include some extra tips on wealth building, investing, and great stories we're reading around the office.

You'll also have access to Stansberry Newswire – a real-time blog that provides updates on the companies you own. We're focusing on what's important: earnings, industry developments, and management changes.

EDITOR

ALAN GULA

Alan is the lead analyst for *Stansberry's Investment Advisory*, our flagship newsletter.

Alan bought his first stock at age 14 in a joint-custody account. He was immediately hooked and knew he wanted to pursue a career in finance.

After graduating from Villanova University, Alan joined Goldman Sachs. He was a financial database expert in the Investment Banking Division. There, he witnessed a merger and acquisition boom. Later, at Barclays Investment Bank, he had a front-row seat to the financial crisis on various trading desks. Alan was also a statistical arbitrage trader at an independent proprietary trading firm.

In 2014, Alan entered the financial publishing industry. He joined Stansberry Research in 2016.

Alan has been a CFA charterholder since 2011. He also has an MBA with a specialization in quantitative finance from the Stern School of Business at New York University.

STANSBERRY'S INVESTMENT ADVISORY

Since 1999, the *Stansberry's Investment Advisory* has been doing some of the most important work in the financial research business.

Through the Internet boom and bust... September 11, 2001... the real estate boom... the China boom... the credit crisis... and the "End of America," the *Advisory* has helped readers see substantial gains, year after year... thanks to a conservative investment formula and often controversial views on the financial world.

No matter what's going on in the world, *Stansberry's Investment Advisory* will show you how to take advantage.

Here's a small sample of many winning recommendations over the past 16 years...

- JDS Uniphase, 592%
- Celgene, 233%
- ID Biomedical, 215%
- Broadcom, 199%
- Gold Miners ETF, 91%
- Anheuser-Busch, 74%
- Fannie Mae (short sale), 64%
- Freddie Mac (short sale), 60%

The *Stansberry's Investment Advisory* research team will show you how to make outstanding gains... no matter what's going on in Washington or on Wall Street.

EDITOR

MIKE DIBIASE

Mike DiBiase is the editor of *Stansberry's Credit Opportunities* – our bond investment advisory.

Mike joined Stansberry Research in 2014. He has 19 years of experience in the world of finance and accounting, most recently serving as VP of Finance & Planning for a large publicly traded software company. During his tenure, the company grew from \$40 million in revenue to over \$1 billion. He was responsible for, among other things, financial analysis and reporting, budgeting, mergers & acquisitions due diligence, preparation of SEC documents and quarterly conference call scripts. Prior to that, he spent five years in public accounting including auditing companies for one of the “Big Four” international accounting firms.

Mike is an expert at analyzing vast amounts of data and does much of the number crunching for Stansberry Data. He understands complex accounting issues and how to read and interpret SEC documents. Mike is a former CPA and holds bachelor’s and master’s degrees in Accounting. He is also a senior analyst and contributor to our flagship research service, *Stansberry’s Investment Advisory*.

STANSBERRY'S CREDIT OPPORTUNITIES

Stansberry's Credit Opportunities is an advanced research service designed to find the best investment opportunities in the distressed corporate-bond market. The goal is to find bonds that yield 10%-20% annually and have the potential to earn subscribers 50%-100% capital gains at maturity.

Mike DiBiase and his team look for two major things in *Stansberry's Credit Opportunities* investments: safety and a high potential return. To find these, they use bonds.

In short, **buying bonds for pennies on the dollar is the absolute best way to make a fortune in the markets.**

As a bondholder, you are simply loaning money at a set rate for a predetermined period of time. As long as the bond issuer doesn't default, you are entitled to receive the par value of the bond at maturity, plus interest payments.

You don't have to guess who has the best widget or which style of clothing people will like from year to year. You just loan money. You simply have to tear through a company's books and determine if it can pay you off in the time period your bonds are "in play."

Bond investing requires a little extra work to place a trade. And you must be patient. But the rewards can be outstanding. You can make high double- and triple-digit returns without having to worry about what the overall stock market is doing. You know exactly when you'll get paid and what the exact returns will be. Once you understand the strategy and have invested this way for a while, you may never buy a stock again.

EDITOR

BILL SHAW

Bill Shaw is the editor of *Commodity Supercycles* and *Stansberry's Gold & Silver Investor*.

Since joining Stansberry Research in 2015, Bill has been traveling the globe searching for the best investment ideas in the commodities and natural resource space.

With *Commodity Supercycles*, Bill and his team analyze a broad range of sectors including oil and gas, base and precious metals, and agriculture equities. He looks at macroeconomic indicators to determine the next winners in this highly cyclical space.

As editor of *Stansberry Gold & Silver Investor*, Bill shows his readers how to hedge their portfolios by placing a portion of their investible capital into gold bullion and precious metals stocks. Thus, giving his readers insurance in case of a financial crisis.

Before joining Stansberry Research, Bill earned a Bachelor of Science degree from Penn State University in environmental resource management. He spent more than a decade in various land development management roles for residential homebuilders – obtaining permits and designing and constructing new communities. At one point he managed a \$100 million portfolio of land assets.

Bill is also a regular contributing analyst for our flagship publication, *Stansberry's Investment Advisory*.

PUBLICATION

STANSBERRY GOLD & SILVER INVESTOR

The *Stansberry Gold & Silver Investor* is designed to help readers prepare for a bull mania in gold.

This advisory offers a full portfolio of gold and precious-metal-stock investments.

Bill Shaw and his team will show you exactly where you should invest to best position yourself to profit from the coming boom in gold prices. They will update you on the latest events in the precious metals and currency markets. And they will share insights from the industry's top executives and investors.

Following the recommendations in the *Stansberry Gold & Silver Investor* may be the most important decision you ever make with your personal finances.

PUBLICATION

COMMODITY SUPERCYCLES

Commodity Supercycles is a monthly investment advisory that focuses on the best natural resource investments today.

Every month, we use our “boots on the ground” expertise and industry connections to recommend the most promising small oil and mineral explorers, drilling service providers, power companies, and the best gold and metals companies in the world.

Many mining and energy industry veterans read *Commodity Supercycles*. As Gerald Wilson, director of an NYSE-listed exploration and production company told us, “Your letter, in many instances, has confirmed good ideas under consideration and at other times introduced new ideas, which have proven to be very profitable! I look forward to your report each month and find it extremely valuable.”

As government money printing continues around the world, the energy and metals investment ideas we recommend in *Commodity Supercycles* are some of the best places to make a lot of money in the next several years.

EDITOR

BILL MCGILTON

Bill McGilton is the editor for *Stansberry's Big Trade* – our speculative options trading service aimed at profiting from the worst corporate credit and companies with broken business models in America.

Bill joined Stansberry Research in 2014. He's been a lawyer for the past 16 years. Most of his experience is in corporate litigation doing research. His background includes securities, contracts, anti-trust, options backdating, foreign exchange fixing, trademark and patent infringement. Typically, he worked on behalf of large commercial banks and large publicly traded companies. He also served as legal advisor on various US government reform programs in developing countries.

Bill is an expert at analyzing legal documents and goes through the bond documents for *Stansberry Credit Opportunities*. On the flip side, he works on distressed debt opportunities in *Stansberry's Big Trade*. Bill holds a bachelor's and juris doctor degree. He is also a senior analyst and contributes to our flagship research service *Stansberry's Investment Advisory*.

PUBLICATION

STANSBERRY'S BIG TRADE

Stansberry's Big Trade isn't like our other products. It isn't about investing at all. This new service is all about speculating. That means that we attempt to profit from market extremes.

Manias like the real estate bubble pop up when the government meddles in the markets. And another one is happening under the radar NOW... this time with car loans, student lending, and corporate debt.

We can't know exactly when this bubble will burst. But we believe the end of the current debt mania will cause a crash in the stock market. Lots of investors will be devastated by the fallout... *But you don't have to be one of them.*

We use an options-trading strategy that we've called the "Big Trade." We buy long-term, out-of-the-money puts on stocks that we expect to fall significantly in the next few years. Our positions rise as these companies fall, and we sell our puts back into the market for a profit.

Traders require approval from their brokers to trade options. Most brokerages have prerequisites to make trades like this. We know this service isn't for everyone.

We have built this service for subscribers who are comfortable with risk. You must be willing to make speculative bets. If you're prepared, triple-digit gains are possible.

HOW OFTEN IS THIS SERVICE PUBLISHED?

EDITOR

JOHN ENGEL

John is the editor of *Stansberry Innovations Report*, a monthly research advisory that shows subscribers how to invest safely in the next technology revolutions. He looks for strong companies that are staking out their spots in the burgeoning technology industry, treating shareholders right, and providing the opportunity for outstanding gains.

He is also a research analyst for *Stansberry Venture Technology* – our premium advisory service focused on emerging technologies and biotechnologies. And he is a contributor to our flagship publication *Stansberry's Investment Advisory*.

John holds a Master of Science from Johns Hopkins University and has real-world experience working at both a biotech startup and a large pharmaceutical company. Prior to joining Stansberry Research in 2015, he worked as a research scientist in a drug discovery lab where he spent years developing novel therapeutics. John is a valuable asset to our team as we hunt for and analyze new scientific breakthroughs.

STANSBERRY INNOVATIONS REPORT

In the *Stansberry Innovations Report*, editor John Engel focuses on the most pioneering and disruptive technologies around the world today.

These big technology trends will play out over several years and decades. Investors who get in early can ride the next technology revolutions in America to tremendous long-term profits.

John holds a Master of Science from Johns Hopkins University and has real-world experience working at both a biotech startup and large pharmaceutical company. Prior to joining Stansberry Research, John worked as a research scientist in a drug discovery lab. Here he spent years developing novel therapeutics. He is also an analyst and contributor to *Stansberry Venture Technology* and our flagship publication *Stansberry's Investment Advisory*.

Now in *Stansberry Innovations Report*, John uses his wealth of experience to identify the most innovative technology companies out there – and only recommend the ones that provide investors a safe way to invest while still offering big upside potential.

EDITOR

DAVE LASHMET

Dave Lashmet is the editor of *Stansberry Venture Technology*, a monthly advisory that takes a “venture capitalist” approach to investing... seeking out small-cap speculative stocks with outstanding breakout growth potential.

Dave was one of the first employees at Stansberry Research back in the early days of our business. His unique insight into new technologies is responsible for some of the biggest gains in the history of our firm... including one of our top 10 “Hall of Fame” recommendations, ID Biomedical (331% gains).

Dave has spent 10 years teaching and writing about medicine and technology at major research universities. He has also done follow-up research at some of the most important facilities in North America: Harvard Medical School, Johns Hopkins, MIT, and the Canadian Centers for Disease Control, just to name a few.

He is also an inventor on three issued U.S. patents (in high-tech hardware and software), and a co-inventor of three more patent applications currently under review by the U.S. Patent and Trademark Office.

Dave returned to Stansberry Research in 2014, after a stint at a consumer electronics company, where he managed a team of experts. His work there took him around the world, delivering presentations in Germany, Taiwan, China, Canada, New York, and LA. He has even delivered a briefing before a Congressional delegation.

Dave is also an analyst for *Stansberry’s Investment Advisory*.

DETAILS

- Editor of *Stansberry Venture Technology*, a monthly advisory that takes a “venture-capitalist” approach to investing in the stock market. Dave scours the market looking for little-known small-cap companies that are producing the next potential wonder drug or technology.
- An analyst for *Stansberry’s Investment Advisory*, a monthly advisory that shows you how to make money from the most promising emerging trends and the most influential economic forces affecting the market.

STANSBERRY VENTURE TECHNOLOGY

Stansberry Venture Technology is a monthly research advisory that takes a venture-capital approach to investing.

Editor Dave Lashmet looks for investments similar to the type available to the largest venture-capital firms, which make billions of dollars in profits by funding companies like Facebook and Twitter in their infancy.

In *Stansberry Venture Technology*, Dave hones in on small, public companies that are producing the next wonder drug or technology. If you can get in early, you can make a lot of money.

Dave has spent the last 20 years working as an independent technology analyst, which makes him the perfect man to head up this effort.

From 1999 to 2006, David covered some of the most important technological innovations in history. Notably, his ID Biomedical recommendation returned 322% for subscribers... It's still one of the 10 best-returning positions ever recommended in our company's history.

He also did extensive early-stage research into groundbreaking tech (and medical tech) firms, including Intuitive Surgical, Autonomy (bought by HP), and Illumina. If you look up these stocks, you'll see that they eventually went up hundreds of percent, and in some cases thousands, after he wrote about them.

In *Stansberry Venture Technology*, Dave is searching for the smallest and most promising firms out there... The goal is for subscribers to make five or 10 times their money on these speculations.

EDITOR

BRYAN BEACH

Bryan Beach is a former “Big Four” auditor and a Certified Public Accountant (CPA) who holds bachelor’s and master’s degrees in Business and Accounting. He spent six years in public accounting and then a number of years as a Controller and Director of publicly held software companies. He also ran his own accounting consulting practice.

Bryan’s specialty is his unique ability to sift through SEC filings... finding both opportunities and red flags. His unique experience in both creating and auditing financial reports allows him to see things most investors miss.

Bryan is the lead editor of *Stansberry Venture Value* and co-editor of *Stansberry Data*. He is also the lead analyst for two of our most popular products: the bond-focused *Stansberry’s Credit Opportunities*, and our flagship product, *Stansberry’s Investment Advisory*. And he is a regular contributor to the *Stansberry Digest*.

DETAILS

- Editor of *Stansberry Venture Value*
- Co-editor of *Stansberry Data*
- Lead analyst for *Stansberry’s Credit Opportunities* and *Stansberry’s Investment Advisory*
- Contributor to the *Stansberry Digest*

PUBLICATION

STANSBERRY VENTURE VALUE

As you can tell by its name, *Stansberry Venture Value* takes both the venture-capital and value approach to investing.

Venture capitalists are the home run hitters of investing. Their successes become front-page news... and phenomena like Apple. Make just one great venture-capital investment and you never have to worry about money.

Value investors invest only in stocks that are trading at a discount to their intrinsic value... stocks that are cheap despite positive long-term fundamentals. Buying when the price is deflated provides a good opportunity for significant profits once the market realizes the true value of the company.

By coupling these two proven strategies, editor Bryan Beach can find companies that have been overlooked by the market because they're "too small" or "too boring"... but which could make you 10 times your money.

In this monthly letter, Bryan is searching for micro-cap stocks with growing revenues, a strong balance sheet, a solid reputation, excellent management teams, and a capital-efficient business structure... that offer huge potential returns.

EDITOR

SCOTT GARLISS

Scott Garliss is the editor of *Stansberry NewsWire* – a real-time daily blog in which he and his analysts scour the markets to offer you a better understanding of the forces driving market volatility... and recommending the best ways to trade that volatility.

Before joining Stansberry Research in 2017, Scott spent 20 years trading for some of the top investment banks in the country, including First Union Securities, Wachovia Securities, Stifel Nicolaus, and FBR Capital Markets.

It was his job to reach out to these firm's most important clients, to make sure they were on top of the upcoming events – both economic and political – that were most likely to move the markets and influence the value of their holdings.

In other words, Scott's specialty was to analyze what traders from around the world were thinking and doing in the markets. With *Stansberry NewsWire*, he uses his expertise to reveal what's happening behind-the-scenes on Wall Street, so you can profit on Main Street.

DETAILS

- Editor of *Stansberry NewsWire*

STANSBERRY NEWSWIRE

Stansberry NewsWire is a real-time, professional blog run by industry veteran C. Scott Garliss.

Scott has more than 20 years' experience in the markets. He has worked for the top investment banks in the country where he was in daily dialogue with some of the world's most prominent hedge funds and mutual funds, sharing market insight and investment ideas.

Now in *Stansberry NewsWire*, he wants to use what he's learned to reveal what's happening behind the scenes on Wall Street so you can profit on Main Street.

Every day the markets are open, the *NewsWire* team sends out constant updates, opinion, and analysis of the vital information you need to know to succeed at investing.

You can think of *NewsWire* like your digital assistant, constantly reminding you of what is unfolding in and shaping the financial markets and your portfolio.

Constantly monitoring the day-to-day news stories and stock moves gives the team – and therefore you – an edge in examining the broader market place for misunderstood stocks and sectors. It also helps identify broader trends and get ahead of the game in terms of thematic opportunities.

If a specific stock or sector ticks up or down sharply during the day, we'll tell you about it immediately. If one of the companies we monitor releases earnings, you'll hear about it that day. We'll alert you to any newsworthy item like specific economic data, Federal Reserve commentary, or political statements in real-time.

In *NewsWire*, we will do all the work for you and removing the emotion from the investing process, so you can focus on making the most informed decisions for your portfolio and investment objectives.

You can track all of our *NewsWire* posts on our website or through our smartphone app. Download the iOS version [here](#) and the Android version [here](#).

ANALYST

GREG DIAMOND CMT

Greg Diamond is the editor of *Ten Stock Trader*, a trading service based on technical analysis. He monitors the global macro environment, including equities, currencies, commodities, futures, interest rates, and more.

Greg has 15 years of trading and portfolio management experience across every asset class.

Greg has traded for a \$3 billion hedge fund and a \$35 billion pension fund. He managed multimillion-dollar portfolios across various asset classes... has spoken at business schools on trading and technical analysis... is a member of the Market Technicians Association... and holds the Chartered Market Technician (CMT) designation.

DETAILS

- Editor of *Ten Stock Trader*

PUBLICATION

TEN STOCK TRADER

In *Ten Stock Trader*, editor Greg Diamond educates his readers on the incredible power of technical analysis. In other words... understanding the behavior of market participants.

There's nothing wrong with wanting to know *WHY* a certain stock will move... But he is much more concerned with *WHEN* that stock will move and *WHAT* the price will do.

To him, there's only one question that matters: Did you make or lose money?

To that end, Greg – a 15-year veteran of trading and portfolio management with billion-dollar funds – will show you how to trade and manage money like a hedge-fund trader... without the ridiculously high fees.

Ten Stock Trader recommends short-term trades on exchange traded funds (“ETFs”), options, and stocks. It only holds 10 positions maximum at any time in the model portfolio.

Every Monday morning, Greg sends an e-mail with his outlook for the markets. It breaks down the technical picture on a variety of stocks, indexes, currencies, futures, and metals... and discusses the best trade setups for the week.

He also sends two to three trade alerts per week with instructions on when to enter and exit these trades.

And you can stay tuned with what else is happening throughout the week on the *Ten Stock Trader* live feed, where Greg publishes updates on market trends, time cycles, pivot points, and trades every day.

DR. STEVE SJUGGERUD

Dr. Steve Sjoggerud is the editor of *True Wealth*, an investment advisory specializing in safe, alternative investments overlooked by Wall Street. It's based on the simple idea that you don't have to take big risks to make big returns.

Since Steve joined Stansberry Research in 2001, he has found super-safe, profitable investment ideas for his subscribers that the average investor simply never hears about... until the big gains have already been made.

Over the years, for example, *True Wealth* readers had the opportunity to make outstanding gains in Icelandic bonds (32%)... timber (64% and 27%)... and housing (103% and 95%), to name a few. Steve also recommended buying gold back in 2002 – when it was trading for around \$320 an ounce – a call that led subscribers who took advantage to gains of 273%, 206%, and 182% in collectible gold coins, and 118% on shares of Seabridge Gold.

Steve is also the editor of *True Wealth Systems*, which uses powerful computer software – similar to the kind found at hedge funds and Wall Street banks – to pinpoint the sectors most likely to return 100% or more. One major newsletter industry insider called *True Wealth Systems* “*the most in-depth research service ever developed.*”

And in 2016, Steve launched *True Wealth China Opportunities*. In this monthly service, Steve explores the huge opportunity he sees building in Chinese stocks. Many of the best, most innovative companies there – in technology, real estate, banking, and more – will see their share prices rise by triple-digit percentages (or more).

Throughout his career, Steve has addressed hundreds of financial conferences in the U.S. and around the world, including at the New York Stock Exchange. He holds a doctorate in finance and has worked as a stockbroker, vice president of a \$50 million global mutual fund, and a hedge-fund manager.

TRUE WEALTH

Dr. Steve Sjuggerud's *True Wealth* is one of the world's most trusted financial newsletters. The investment philosophy of *True Wealth* is simple: Buy assets of great value when no one else wants them... and sell when others will pay any price.

Steve scours the globe looking for investment ideas that are cheap, ignored by the average investor, and beginning an uptrend.

In the past, Steve has found unusual opportunities you simply won't hear about anywhere else – including timber, gold coins, and government "tax certificates." If you get in early, these investments have the potential to make excellent gains – with extremely low risk.

Over the years, he has also called the timing of a lot of big market events...

Like the top of the market in January 2000. He wrote to his readers: "We are at the peak of most likely the greatest financial mania that will ever be seen in our lifetimes and quite possibly the greatest ever witnessed."

And then at the bottom in March of 2009 he said, "I am extremely bullish on stocks, starting now."

This is why Steve has been asked to appear on some of the biggest financial news shows, month after month. For example, in just the past six months, he has appeared on *Fox Business*, *CNBC*, and *Bloomberg Television*.

Each month in *True Wealth*, Steve will bring you safe, profitable alternative investment ideas that are perfect for retirees and those about to retire.

TRUE WEALTH SYSTEMS

True Wealth Systems is an advanced trading advisory that allows readers access to strategies they would normally never hear about.

This service, created by Dr. Steve Sjuggerud with the help of Senior Analyst Brett Eversole, gives you access to a top collection of high-probability, high-profit trading systems. The goal is to find ways to profit from extreme market anomalies.

In short, readers will benefit from the kind of research only the biggest hedge funds have access to. Steve and his team spent hundreds of thousands of dollars and years of man-hours building their own custom analysis software. And they've been crafting safe, successful trading systems using these incredible tools.

These strategies take advantage of investments from every corner of the market – commodities, currencies, stocks – so you will always be able to make money somewhere.

Tested over decades, they have proven to return as much as 60% annualized when “in the trade.” And in the *True Wealth* way, you don’t have to take big risks to make this kind of return. Steve and Brett are not using options or any other fancy strategies to make those gains.

Most importantly, though, it’s simple: The *True Wealth Systems* software provides precise entry and exit points. The trades couldn’t be easier to follow.

TRUE WEALTH OPPORTUNITIES: CHINA

The investments Dr. Steve Sjuggerud focuses on in *True Wealth Opportunities: China* are some of the greatest opportunities he has ever seen.

First and foremost, China is in the middle of a technology revolution.

Investing in China right now is like stepping back in time. It's a way to invest in the world's biggest ideas... before they become the biggest ideas.

Imagine if you could invest in Amazon's revolutionary technology 15 years ago... or Facebook's social-networking technology four years ago.

That's the opportunity we have in China's technology sector today.

Steve also covers the biggest "wrong" in the world of finance. China is the world's second-largest stock market. It's larger than every other stock market in the world, except the U.S. But right now, NOBODY owns locally traded Chinese stocks. Nobody, that is, except us...

\$1 trillion – or more – should flow into Chinese stocks and bonds in the next five to seven years as this "wrong" is "righted." This is another way Steve helps his subscribers profit in *True Wealth Opportunities: China*.

Steve covers other big themes in China as well, like the world's greatest property boom and the upcoming MSCI decision on the Chinese stock market. In short, any Chinese investment that he believes can earn you triple-digit or larger gains will be on the table.

In this letter, you'll learn the simplest – and the best – ways to take advantage of all of these ideas... and new opportunities as they come up.

TRUE WEALTH OPPORTUNITIES: COMMODITIES

Steve believes the next great commodities boom is already underway. And it's all happening thanks to a brutal, decade-long bear market.

Now, we can buy a broad basket of commodities... at 1990 prices. It's an incredible opportunity. And Steve will be right by your side, guiding readers through the larger economic environment and drilling down into the best ways to profit from the coming commodities boom.

Getting into the right investments during a commodities boom can mean hundreds-of-percent gains. Profits of up to 500% are possible if things go right.

Steve and his team have found the absolute best ways to profit from the commodity boom... And they've packaged them into a concise and actionable portfolio.

In *True Wealth Opportunities: Commodities*, you'll learn the simplest – and most profitable – ways to take advantage of this opportunity... and new opportunities as they come up.

The goal, as always, is to make you as much money as possible.

DR. DAVID EIFRIG, JR.

Dr. David Eifrig is the editor of five Stansberry Research newsletters... His largest monthly publication, *Retirement Millionaire*, shows 100,000-plus readers how to live a millionaire lifestyle on less money than you'd imagine possible. *Retirement Trader* shows readers a safe way to double or triple the gains in their retirement accounts with less risk.

Income Intelligence shows investors how to analyze the income markets to maximize their income and returns. *Advanced Options* uses a strategy to take stock recommendations from Stansberry Research and multiply the profits by 10 to 20 times. And free e-letter *Health & Wealth Bulletin* provides readers with a guide for living well at a good price and on their own terms.

Doc has one of the best track records in the financial-newsletter business. From 2010 to 2014, he closed 136 winning positions in a row for his *Retirement Trader* subscribers.

Before joining Stansberry Research in 2008, Dr. Eifrig worked in arbitrage and trading groups with major Wall Street investment banks, including Goldman Sachs, Chase Manhattan, and Yamaichi in Japan. He has also published peer-reviewed medical research.

After retiring from Wall Street, Dr. Eifrig attended medical school to become a board-eligible ophthalmologist. At Stansberry Research, he shares his love for empowering people with his finance and medical knowledge.

DETAILS

- Editor of *Retirement Millionaire*, a monthly advisory that shows readers how to live a millionaire lifestyle on less money than you'd imagine possible.
- Editor of *Retirement Trader*, a trading advisory that shows readers a safe way to double or triple the gains in their retirement account, with much less risk.
- Editor of *Income Intelligence*, an income advisory that shows readers how to analyze the income markets to maximize their income and total returns.
- Editor of *Advanced Options*, a trading strategy that takes stock recommendations from Stansberry Research and multiplies the profits by 10 to 20 times.
- Author of the book *High Income Retirement: How to Safely Earn 12% to 20% Income Streams on Your Savings, The Doctor's Protocol Field Manual, The Big Book of Retirement Secrets, and The Living Cure*.

RETIREMENT MILLIONAIRE

Retirement Millionaire will show you how to live a millionaire retirement lifestyle... without a lot of money.

Editor Dr. David Eifrig, Jr. started his career trading derivatives at Goldman Sachs for more than a decade. After growing weary of that life, he decided to switch careers and become a medical doctor. Now, in his latest “retirement,” he has joined Stansberry Research to do what he loves best... advising others on improving their health, managing their money, and how to enjoy a prosperous retirement.

Along with the safest investment and income ideas, every month in *Retirement Millionaire*, Dr. Eifrig will show you retirement secrets like...

- Why using an “alternative energy” source could pay you \$2,500 every month
- How to get free prescription drugs
- How to get 40% off dinners
- How to get a 100% free cruise
- How to get free golf
- The secret of traveling the country in a nearly free RV
- How to get a free California wine vacation
- How to find out if a document sitting in your desk drawer could be worth \$250,000

The fact is, if you’re not using Dr. Eifrig’s retirement secrets, you are missing out on some amazing opportunities to live a healthier, wealthier retirement.

INCOME INTELLIGENCE

Income Intelligence will show you that you don't have to take on big risks to generate steady income in today's zero-percent-interest world.

After years on Wall Street, Dr. David Eifrig, Jr. used his experience and financial acumen to seek out ways to generate safe income from savings.

The lessons he learned over those decades have helped to form *Income Intelligence*, a monthly advisory that searches for the best income-producing ideas, from municipal bonds to master limited partnerships and everything in between.

Each month, Dr. Eifrig shares his insights and thoughts about a specific income investment. In addition to that, he provides all the information you need to fully understand just how income investing works, what's going on in the income markets, and all the facts you need to watch to be "in the know."

Income Intelligence is designed for investors of every level, with simple explanations and investments that are easy to make in any brokerage account.

Once a month, you'll have the opportunity to earn high yields on safe investments and understand all the financial forces affecting your income.

RETIREMENT TRADER

Retirement Trader is a twice-monthly trading advisory where Dr. David Eifrig, Jr. shows you a safe way to double or triple the gains in your retirement account, with much less risk.

Before he came to Stansberry Research, Dr. Eifrig was part of an elite team of traders at Goldman Sachs where he created sophisticated investment vehicles for private clients and other traders at the firm.

In *Retirement Trader*, Dr. Eifrig takes what he did for Goldman Sachs and, in plain English, shows readers unusual ways to make large, safe gains in the stock and options markets... whenever and wherever these opportunities arise.

The strategies Dr. Eifrig uses in *Retirement Trader* are so safe, he went more than three years without closing a single losing position in the advisory's model portfolio.

If you're the type of investor who knows super-safe trading opportunities only come from waiting patiently for what billionaire investor Warren Buffett calls the "fat pitch," this is the service for you. *Retirement Trader* is your opportunity to learn about the timeless techniques of investing with less risk.

Once you see how simple it is, you'll never look at stocks and options the same way again.

ADVANCED OPTIONS

Advanced Options is an exciting and profitable way for everyday investors to use intelligent option strategies to earn better returns on stocks.

This isn't your typical trading "service."

In short, we're searching for bigger gains. We use options trades to turn what would be a 10% gain in a stock into a 100% or 200% gain. We also have ways to make profits when stocks stay flat or even if they decline.

In this advisory service, we'll review the latest investment recommendations from the *Investment Advisory*, Steve Sjuggerud's *True Wealth*, and Doc's own *Retirement Millionaire* to find the ideal option trade to turn those ideas into bigger gains. By the time you've gone through our course and set up your options trading account, you'll be ready to have fun in the markets and make some real trading gains.

Whenever you have a stock idea, you can boost your returns by two times, 5 times, or 10 times. When someone at a cocktail party brags about a 100% gain, you can note that you make multiple doubles every month.

You only need to get a handle on a few fundamentals – and then you can apply them over and over again. It's like learning how to read. You spent some time as a child putting together a few basic concepts, and it has enriched your life to an immeasurable degree.

Learning about options will do the same for you, in this case, in a way that is directly financially rewarding.

EDITOR

DAN FERRIS

Dan Ferris is the editor of *Extreme Value*, a monthly investment advisory focused on the safest stocks in the market: great businesses trading at steep discounts.

Dan joined Stansberry Research in 2000. He became the editor of *Extreme Value* in 2002. His strategy of finding safe, cheap, and profitable stocks has earned him a loyal following – as well as one of the most impressive track records in the industry.

Longtime *Extreme Value* readers have enjoyed a long list of double- and triple-digit winners thanks to Dan's diligent research, including Berkshire Hathaway (125%), KHD Humboldt Wedag (249%), International Royalty (248%), Alexander & Baldwin (198%), Icahn Enterprises (142%), Latin American Export Bank (133%), Intel (133%), and Prestige Brands Holdings (406%), among many others.

Dan was among the few newsletter analysts to accurately describe the breadth and depth of the coming financial crisis in April 2008. And he told investors to get out of small-cap mining stocks in May 2011, just before they went into a brutal, multi-year bear market.

Dan's track record, candid voice, and deep research are why *Extreme Value* counts more than 20 major financial firms and well-known fund managers as subscribers.

Dan is also the host of Stansberry Investor Hour, a free podcast that provides listeners with weekly access to some of the best minds in business, investing, and political affairs.

As a result of his work, Dan has appeared on *Money with Melissa Francis* and *The Willis Report* on Fox Business News, as well as *The Street* with Paul Bagnell on Business News Network. He has also been featured several times in *Barron's*, the *Value Investing Letter*, and numerous financial radio programs around the country.

DETAILS

- Editor of *Extreme Value*, a monthly investment advisory focused on the safest stocks in the market: great businesses trading at steep discounts.
- Host of Stansberry Investor Hour, a free podcast that provides listeners with weekly access to some of the best minds in business, investing, and political affairs.
- Author of the book *World Dominating Dividend Growers: Income Streams that Never Go Down*. Inside, you'll learn why these companies are incredible income investments... how to identify a World Dominating Dividend Grower... exactly how to buy them... and how they can produce safe, double-digit annual income streams for their shareholders.

PUBLICATION

EXTREME VALUE

Extreme Value analyst Dan Ferris' strategy of buying safe, cheap stocks – only when the price is right – has earned him one of the most impressive track records in the industry. In fact, many well-known money managers follow Dan's recommendations. His work has even been covered extensively in *Barron's*.

Why does Dan have such a great track record? Because he spends hundreds of hours each month poring over balance sheets and SEC filings to find stocks trading at huge discounts to their true worth – giving his readers a large margin of safety.

Not only are *Extreme Value* stocks safe, they are also one of the most profitable ways to invest. A 27-year study by two University of Chicago professors (one of whom was nominated for a Nobel Prize) proved the *Extreme Value* strategy trounced the overall market.

Since *Extreme Value* launched in 2002, Dan's readers have had the opportunity to make incredible gains in super-safe stocks, including 198% in Alexander & Baldwin... 248% on International Royalty... 117% on Encana... 104% on Portfolio Recovery Associates... and 142% on Icahn Enterprises.

Extreme Value uses a classic value-investing philosophy to help you make some of the biggest, safest gains you'll ever find in the stock market.

ANALYST

THOMAS CARROLL

Thomas Carroll is one of the most respected and longest-serving health care analysts on Wall Street. Prior to joining Stansberry Research, Tom worked at Legg Mason and then Stifel Financial in Baltimore for nearly two decades as managing director and senior analyst of health care.

His research was used by institutional investors, newswires, and health-care-specific publications, as well as CNBC, Bloomberg, CNN, and Fox Business. He has also consistently ranked in industry stock-picking awards, including top five finishes for stock picking from StarMine, the *Wall Street Journal*, and *Forbes*. And he was ranked by *Fortune* magazine as the No. 1 U.S. health care analyst.

Now, he is the editor of *Cannabis Capitalist*. Thomas' rare combination of boots-on-the-ground knowledge of the health care sector and Wall Street investing expertise makes him the ideal person to help subscribers navigate the fast-growing cannabis sector and focus on only the best opportunities.

DETAILS

- Editor of *Cannabis Capitalist*, a monthly investment advisory that helps you invest in the best companies in the nascent cannabis industry.

PUBLICATION

CANNABIS CAPITALIST

Governments across North America and around the world are embracing laws to legalize the medical and recreational use of marijuana. This creates a huge opportunity to invest in the early days of what promises to grow into a mammoth market.

There is a lot of hype and euphoria surrounding companies that are growing, processing, and marketing legal cannabis... and products derived from the plant. Getting caught up in the trendiest speculation of the day is usually a good way to get hurt. And indeed, we at Stansberry Research remained cautious on this sector until we were sure the time was right to place some bets.

With Thomas Carroll at the helm, *Cannabis Capitalist* is your chance to speculate on some of the highest-quality companies driving this emerging industry.

Thomas' rare combination of boots-on-the-ground knowledge of the health care sector and Wall Street investing expertise makes him the ideal person to help subscribers navigate the fast-growing cannabis sector and focus on only the best opportunities.

You'll receive a brand-new recommendation in your e-mail inbox on the second Thursday of every month, as well as have access to exclusive special reports and supplemental online materials.

ANALYST

JOHN DOODY

John Doody brings a unique perspective to gold stock analysis. With advanced degrees in both economics and finance, he has no formal “rock” studies beyond “Introductory Geology” at Columbia University.

After almost two decades as an economics professor, it was an innate distrust of politicians and a concern about their habit of debasing the currency via inflationary economic policies that sparked John’s interest in gold.

As he initially studied gold stocks, he had a hard time deciding which to buy. Their share prices, market capitalizations, production, and reserve levels were all different, yet each made exactly the same product: Gold.

To solve the dilemma and determine which gold stocks represent the best value at a point in time, John popularized a metric called “Market Cap Per Ounce” (market capitalization divided by the ounces produced per year). This puts all the miners on the same basis, so you know how much you’re paying for each ounce of production and each ounce of reserves.

The Market Cap Per Ounce values are wide-ranging... sometimes justified and sometimes not. This simply means that “Mr. Market” is inefficient and does not always price a stock correctly... which creates many of the opportunities that John identifies in his newsletters, *Gold Stock Analyst: Pro* and *Gold Stock Analyst: Silver*.

Gold has been the ideal currency and store of value for centuries. It is a critical asset to own in today’s world of currency manipulation and historically low interest rates. John’s *Gold Stock Analyst* newsletters cover only producers or near-producers that have an independent feasibility study validating that their reserves are economic to produce.

This method of finding undervalued gold mining stocks has proved spectacular... An independent third-party audit shows its Top 10 model portfolio returned 530% between 2001 and 2018.

DETAILS

- Editor of *Gold Stock Analyst: Pro* and *Gold Stock Analyst: Silver*, monthly advisories that identify undervalued mining companies based on current operations and/or prospective mines in the pipeline.

GOLD STOCK ANALYST: PRO

Editor John Doody has been writing *Gold Stock Analyst* for more than 20 years, after leaving a professorship at Bentley College to dedicate himself to studying the gold market and gold stocks.

In *Gold Stock Analyst: Pro*, he covers a universe of 50 gold stocks that have verified reserves and/or production. John evaluates all of these stocks based on current and expected output, reserves, and special situations. From that analysis, he identifies the 10 best stocks to own and sets price targets for each.

We recommend all subscribers hold this Top 10 portfolio and track its performance on page 2 of each monthly issue. We never know which stock will do best in the short term, but the 530% gain from 2001 to 2019 is almost double that of gold, triple that of the S&P 500 Index, and 1,330% more than major gold index XAU.

Look for a brand-new recommendation in your e-mail inbox on the second Monday of every month, as well as enjoy exclusive special reports and supplemental online materials as they become available.

GOLD STOCK ANALYST: SILVER

In our sister publication, *Gold Stock Analyst: Pro*, editor John Doody covers a universe of 50 gold stocks that have verified reserves and/or production. He evaluates all of these stocks based on current/expected output, reserves, and special situations. From that analysis, he identifies the 10 best stocks to own and sets price targets for each.

In *Gold Stock Analyst: Silver*, John follows a similar approach – covering a universe of around 25 silver producers. The *Gold Stock Analyst: Silver* model portfolio includes the top five silver miners... what we call our Fave Five.

Silver is more volatile than gold. When silver swings up, it tends to swing higher than gold does... but it can fall just as fast. So we would recommend *Gold Stock Analyst: Silver* as a complement to our *Gold Stock Analyst: Pro* sister publication. John emphasizes a portfolio weighting of about 70%-80% in gold and the remainder in silver.

Look for a brand-new recommendation in your e-mail inbox on the fourth Monday of every month, as well as enjoy exclusive special reports and supplemental online materials as they become available.

BEN MORRIS

Ben Morris is the editor of *DailyWealth Trader (DWT)*.

An avid trader, Ben followed Stansberry Research for years as a subscriber before joining the company in 2012.

As editor of *DWT*, Ben's goal is to provide the best short-term and medium-term trading ideas. For example, he often shows his readers how to use simple options strategies to generate 20%-plus annualized returns on safe blue-chip stocks... And he shows readers how to make low-downside, high-upside speculations in "boom and bust" sectors like commodities, biotech, and emerging markets.

Over the years, *DWT* readers had the opportunity to make 24 winning short-term trades on fast-food giant McDonald's, without a single loser. They had the opportunity to make 80% in less than a year on aluminum maker Alcoa... 58% in six months in a biotech fund... and even 47% on a low-risk trade in U.S. Treasurys.

Ben has helped *DWT* become one of the most successful, most popular financial services in America. He also frequently contributes to *DailyWealth* and the *Stansberry Digest*.

Prior to working at Stansberry Research, Ben graduated from the Northeastern University's D'Amore-McKim School of Business. He spent his early career in international real estate as a broker and investor. He lived in both Spain and Costa Rica, is fluent in Spanish, and has spent time in more than a dozen other countries.

DETAILS

- Editor of *DailyWealth Trader*, a trading research service where you'll get the best short-term and medium-term trading ideas.

DAILY WEALTH TRADER

Our goal with *DailyWealth Trader* is to provide you with the world's best short-term trading ideas, every single day the market is open.

Editor Ben Morris finds some of the market's best trading ideas from the analysts at Stansberry Research, like Dr. David Eifrig, Jr. and Steve Sjuggerud... from the market's greatest money managers... and from our extensive network of contacts and industry "insiders."

You'll find all sorts of unique yet simple-to-use strategies in *DailyWealth Trader*.

For example, you might learn how to use a safe options strategy to generate an income stream of 15%-30% a year... or how to use investor sentiment as a tool to time and trade market "extremes"... or which "boom and bust" sector – like commodities, biotech, or emerging markets – is offering the best setup right now.

Best of all, Ben will show you step by step how to execute each trade... how much money is required to place the trade... how long you should expect to stay in the trade... and how much you can expect to make.

If you've ever wanted to learn how to trade, but haven't yet, this is exactly the service for you. Readers rave about the huge online educational archive, with an investment and trading education worth thousands of dollars. *DailyWealth Trader* readers get access to it for free.

HEALTH & WEALTH BULLETIN

Health & Wealth Bulletin is a free daily e-letter that provides you with a guide for living well... at a good price... and on your own terms.

It's packed with secrets, tips, and strategies you can put to use right away. And it's your free guidebook to intriguing health and wealth ideas... and how to live a "millionaire lifestyle" on far less than you can imagine.

Written by Dr. David Eifrig, Jr. and his research team, *Health & Wealth Bulletin* will arrive in your inbox each weekday... and once on the weekend with a recap of the best or most-read stories from the week.

If you know anything about Dr. David Eifrig, or "Doc," as we call him around the office, you know he doesn't do things the "typical" way.

He's always looking for a loophole, an edge, or an advantage. A better way. Especially when it comes to having a happier, healthier, and richer retirement.

Doc loves to get these types of "hacks," ideas, secrets, and strategies out to others. And that's why he writes a retirement newsletter (*Retirement Millionaire*), an income advisory service (*Income Intelligence*), and a retirement options-trading service (*Retirement Trader*)...

If you've seen any of these publications, you know firsthand that Doc's work can improve your life and your retirement in a dramatic way.

But there's so much more Doc would like to share with you.

That's why Doc and his team produce *Health & Wealth Bulletin*.

STANSBERRY DIGEST

Every weekday in the *Stansberry Digest*, top Stansberry Research analysts address what's going on in the markets and the economy. It's free to all Stansberry Research subscribers.

The *Digest* is a way for you to become a Stansberry Research insider. You'll know what all our analysts are pursuing... what they're reading... details on where we think the best opportunities will be in the coming months... and much more.

For example, you might read about how one analyst visited the best real-estate buy in America... or the details on what Stansberry Research's top medical expert discovered at a recent conference on heart disease... or the story of how one analyst traveled way off the beaten path in search of gold in Haiti.

The *Digest* is also a forum for us to field e-mails and questions from subscribers. Our analysts read every letter you send and reply to many of the most common (or provocative) questions in the *Digest*.

Digest readers also receive "The Masters Series," which consists of two e-mails per weekend – one on Saturday... and one on Sunday. Our goal with The Masters Series is to bring *Digest* readers the world's best insights on investment, economics, politics, and history from our friends in the investment and publishing world.

The *Digest* will keep you up to date on what's going on with the rest of the Stansberry Research family: the inner workings of our business... what we got right... what we got wrong... where we're traveling next... and much more.

HOW MUCH CAPITAL SHOULD I HAVE TO GET STARTED?

Great for beginning investors

WHAT WILL WE BE BUYING?

Mostly stocks, but may address an array of investing tools and strategies

DO YOU PUT ON SHORT TRADES?

Occasionally

WHAT'S A TYPICAL HOLDING PERIOD?

A month to a few years, depending on the strategy

DAILY WEALTH PREMIUM

DailyWealth Premium is delivered five days a week directly to your e-mail. It is the subscriber-only supplement to the free e-letter *DailyWealth*.

In *Premium*, lead editor Dr. Steve Sjuggerud uses his access and connections in the financial industry to give you some of the best professional investment research and recommendations in the world (some of which retail for as much as \$5,000 per year)... at a tiny fraction of the regular price.

That's the idea behind *DailyWealth Premium*. Steve cherry-picks some of the best investment ideas in the industry and sends them to you each morning... before the markets open.

Even better, you'll get the name, ticker symbol, and the "quick capsule" thesis behind each recommendation.

In addition, Steve and his senior research analyst Brett Eversole will tell you about what's most important in the markets right now and what it all means for you. They'll write about which markets look cheap... which markets look dangerous... and which sectors are at the beginning of an explosive uptrend.

It is the one place where Steve can get critical information to subscribers and share investment ideas that are much more precisely timed than what he's able to do in any of his monthly newsletters.

No

WHAT'S A TYPICAL HOLDING PERIOD?

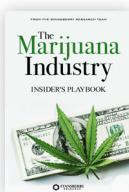

At least one year, and often longer

BOOKS FROM STANSBERRY RESEARCH

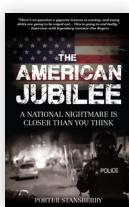

The Battle for America: Why the Next Election Will Cause the Biggest Financial Crisis in U.S. History

We're facing the ugliest presidential election in history – one that could put a progressive demagogue in the White House. The 2020 presidential campaign will “out-liberal” anything you've ever seen. She's Bernie 2.0. She's worse than Oprah. She'll make Barack Obama seem like a moderate. And the steps she takes during her first 100 days in office will send our nation into a financial catastrophe, creating a nightmare for Baby Boomers. In this book, Porter shows what you need to do today to prepare for what is looming on the horizon.

The Marijuana Industry Insider's Playbook

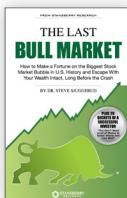

This book profiles some of the leading entrepreneurs and newly minted millionaires in the legal marijuana space to study the basics of this industry, the longevity of the cannabis boom, and where to consider investing. Learning from these folks could help you find legitimate opportunities with the potential for extraordinary gains in the next few years – both inside and outside the stock market. If you want to make money in a promising new industry that is only in the first innings of what could be a massive migration of wealth... you need the insider's advantage.

The American Jubilee

A major Debt Jubilee is coming to America. The crowds will cheer. Politicians will promise new and better prosperity. And the wealthy will make a fortune. But for many, a Debt Jubilee will mean huge losses. Tens of millions of Americans could lose trillions of dollars. You don't have to be one them. In *The American Jubilee*, Porter explains how the next Debt Jubilee is likely to play out... how it will affect you and your money... and a few simple but crucial steps you can take now to not only survive – but prosper – as it unfolds.

BOOKS FROM STANSBERRY RESEARCH

The Last Bull Market

We are smack in the middle of the greatest stock market bubble in history. Dr. Steve Sjuggerud's research indicates the bubble is not yet over. But when it bursts, it will devastate millions. In *The Last Bull Market*, Steve shows how making the right decisions today could double – even quadruple – the size of your retirement account as we reach the peak of this incredible bubble... and escape the inevitable crash.

America 2020: The New Crisis

In the third iteration of Porter's *America 2020*, he updates you on America's increasingly fragile condition and why he's convinced that an economic crisis is inevitable. The next crisis will not only affect the banks and the stock market... but everyone on the planet. It will change the way you live, work, travel, retire, and invest. To protect yourself from the looming financial crisis, take steps to safeguard your wealth today.

America 2020 Volume II

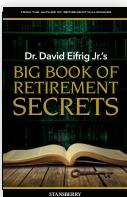

In the second volume of Porter's *America 2020* series, he and his team asked many of the smartest and wealthiest people they know – including a rare-coin and bullion dealer, a world-renowned speculator, a lauded real estate investor, and a multimillionaire businessman – to answer one question: "What are you worried about today and what are you doing to protect your wealth?"

America 2020: The Survival Blueprint

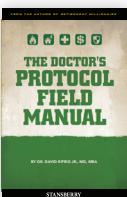

There is a big crisis lurking in America – more dangerous than the financial crisis of 2008. This will be a major collapse in our national monetary system that will threaten our very way of life. In *America 2020: The Survival Blueprint*, Porter Stansberry discusses exactly what is happening in our country... as well as the ideas, techniques, and strategies you'll need to prepare for the dangerous times ahead.

BOOKS FROM STANSBERRY RESEARCH

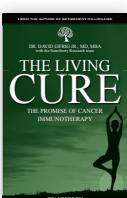

Big Book of Retirement Secrets

Dr. Eifrig takes an in-depth look at six loopholes that will help you save and even earn money in your retirement. He also analyzes several investment strategies and health tips and secrets that will help you live a happy, healthy, and wealthy life.

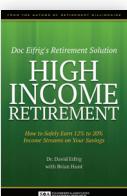

The Doctor's Protocol Field Manual

In this field manual, you'll learn surprisingly simple strategies and tactics for survival. From psychoanalysis to self-defense, medical issues to personal finance, Dr. Eifrig moves the reader beyond hype and fear... to real, actionable steps for survival and prosperity.

The Living Cure: The Promise of Cancer Immunotherapy

Dr. David Eifrig, Jr. details a real, science-backed cancer-treatment alternative to poisonous chemotherapy and radiation. He tells you where to go if anyone you know is faced with this horrible disease, how to access incredible treatments not available to the general public, and much more...

High Income Retirement: How to Safely Earn 12% to 20% Income Streams on Your Savings

In *High Income Retirement*, Dr. Eifrig details how stock options work and how to use them to reduce risk. He also debunks the most common misperceptions of stock options and explains why most people misuse them. Finally, Dr. Eifrig walks readers through step-by-step instructions in how to make his safe, profitable trades.

The World's Greatest Investment Ideas: 31 Secrets and Strategies that Will Make You a World-Class Investor

This book is an incredible collection of “distilled” wisdom on wealth and investment. Through brief, educational interviews with Stansberry Research analysts and our most trusted contacts, you'll learn how to identify a great business... how to get a big raise at work... why you should never retire in the conventional sense... a simple way to make a fortune in natural resources... and many more brilliant ideas.
